Symbeo RapidInvoice

Automation that just clicks.

Your days of touching paper invoices are over

Symbeo RapidInvoice is a modern mailroom and invoice data capture solution that removes repetitive, manual tasks from the accounts payable (AP) process.
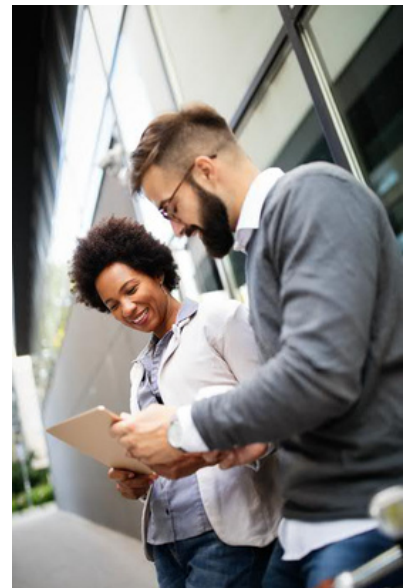

Eliminate up to 50% of invoice processing effort and cost by centralizing physical and email-based invoices into a daily delivery of accurate, complete data ready for your AP team to act.

Our proprietary software coupled with AI data extraction results in SLA guaranteed 95% data capture accuracy, giving you the edge.

With newfound flexibility and visibility, you can begin to harness the power of automation that helps your company achieve business goals and focus on what matters most.
